

Second Phase Reconstruction of Saybrook and Randolph Roads

The second phase of the Reconstruction of Saybrook and Randolph Roads will be starting on Monday, May 21st. This includes the major reconstruction of the roadway pavement structure starting at the intersection of Saybrook Road and Windy Hill Drive. The project will proceed southerly on Saybrook Road, to the intersection of Randolph Road. This part of the project is expected to last for approximately 1 month. Then the section of Randolph Road, between Saybrook Road and Coe Avenue/Route 9 NB ramps will be reconstructed, which should last for approximately an additional 2 weeks. Traffic will be detoured around the specific works sites each day; Signage and traffic control officers will be present during the construction.

The project is being funded and administered by the State Department of Transportation. Any local questions on this project can be directed to Robert Dobmeier, Deputy Director of Public Works, at 860-344-3411.
